

NewTechWood

PLANTER KITS

FEATURES

ULTRASHIELD® MATERIAL

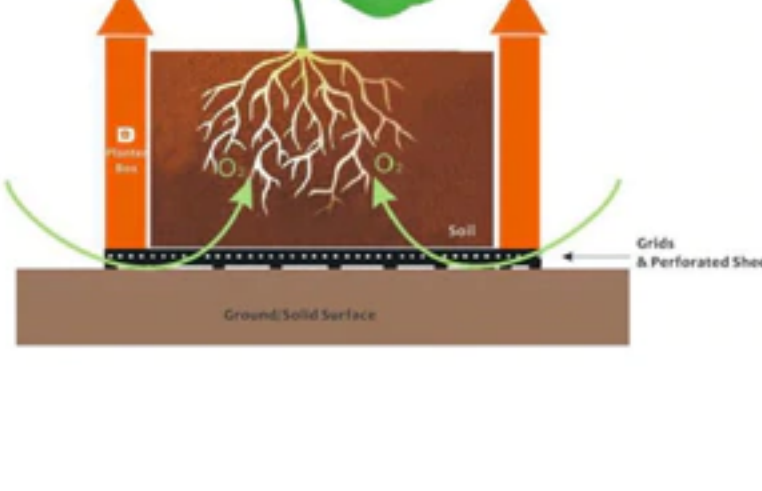

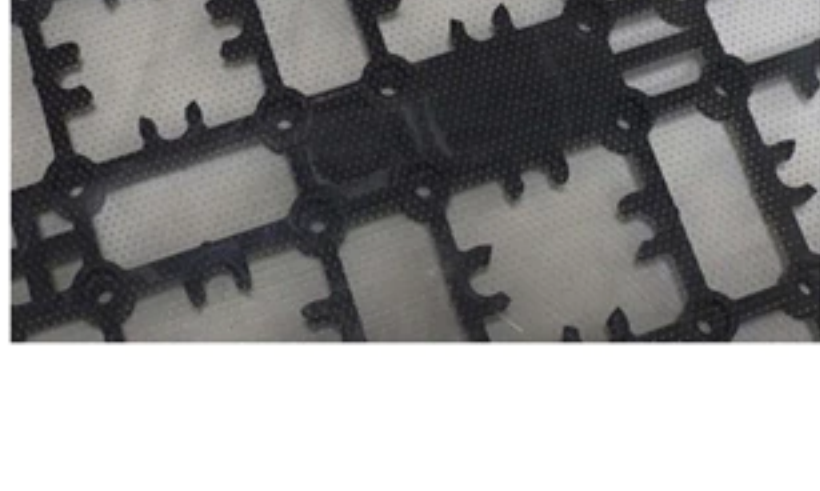

The boards are made of UltraShield capped composite material. The Shield wrapped the core 360 degrees. It is an engineering grade polymer, with water adsorption rate as low as 0.2%, so it gives Ultra Protection against:

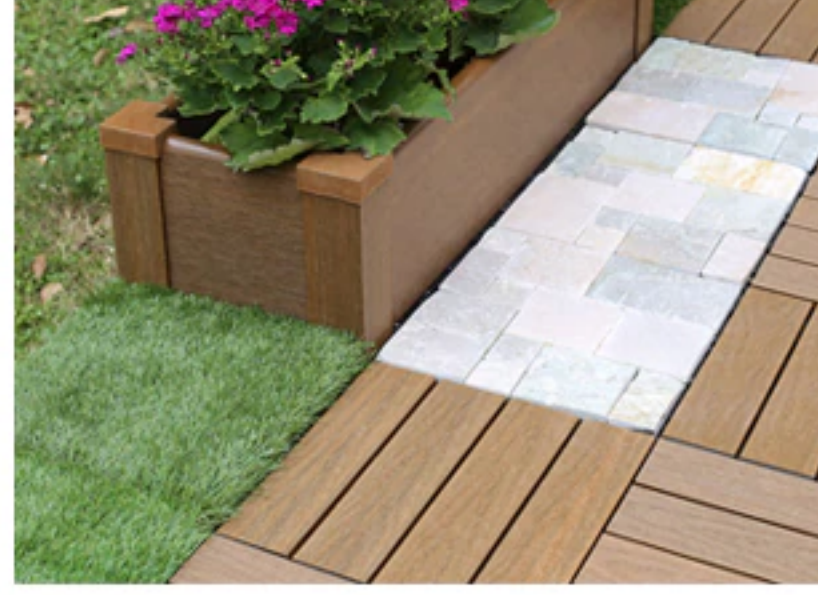

- ◆ **Stains** – Easy cleaning
- ◆ **Scratches** – Maintain a beautiful outer look
- ◆ **Rot** – Durable with a longer lifespan
- ◆ **Splitting** – Safe for all family members
- ◆ **Fungus** – Keeps plants healthy
- ◆ **No need to paint** – Save time & money

PERFORATED SHEET

- ◆ Keeps soil and sand in while allowing for water drainage
- ◆ Improves healthy root growth by supplying oxygen (O₂) through the base grid and perforated sheet into the root planter kit perforated sheet

CONNECTIVITY

- ◆ Designed to connect with NewTechWood Quick Deck deck tiles

USES

Planter

Sand Box

SIZES AND COLORS

1X3

2X3

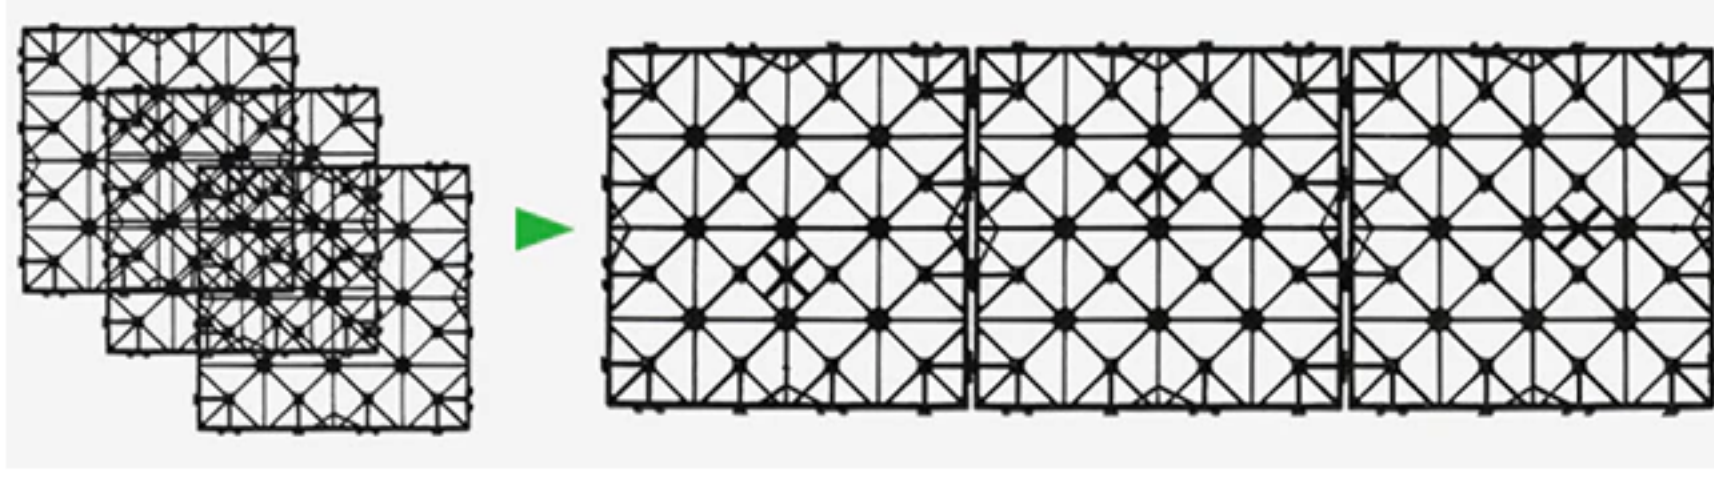

3X3

Cedar

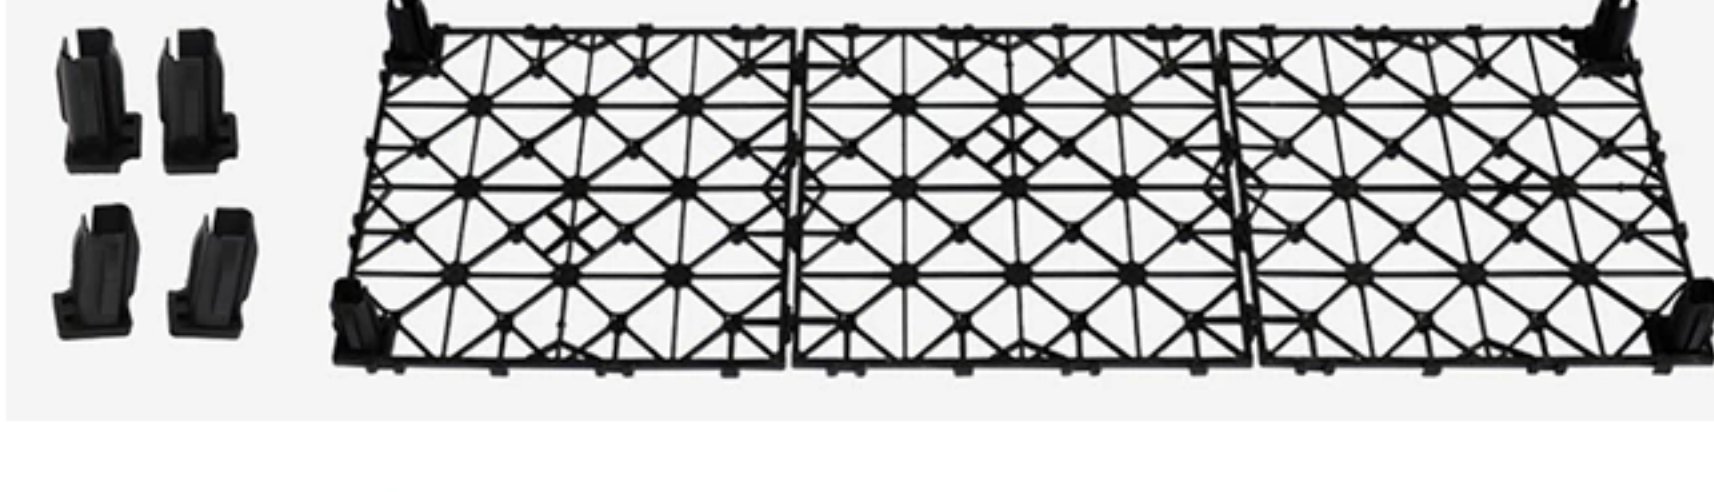

Teak

INSTALLATION

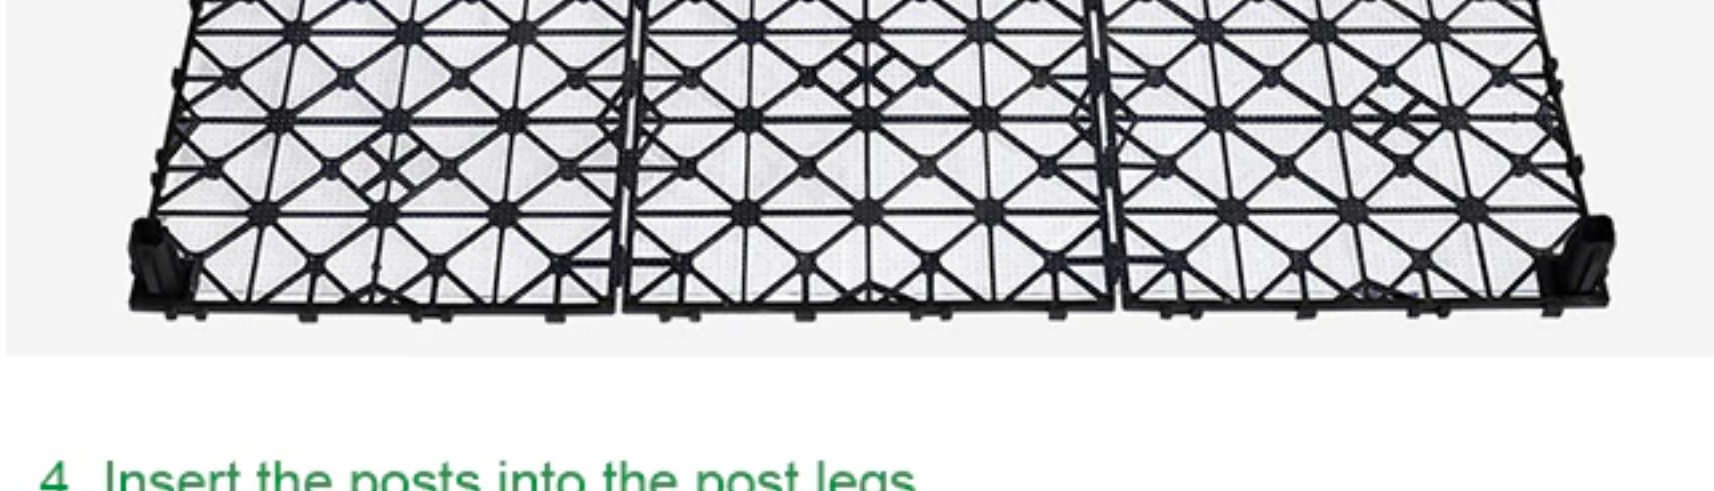

1. Lay & connect the grids on a flat surface
